Database Management – MySQL, PostgreSQL, DynamoDB

Version Control & Deployment – Git, GitHub, AWS Amplify, Elastic Beanstalk

CERTIFICATIONS

- Core Java Bootcamp by NareshIT
 - SQL by Hacker Rank
 - Web Design by freeCodeCamp
-

INTERNSHIP

Web Development virtual internship at CodSoft

Feb 2025 - March 2025

PROJECTS

Hand Gesture Recognition using CNN and Conversion to Speech

Developed a mini project in college, used for recognizing hand gestures and converting it into speech using OpenCv, CNN and gTTS in Python.

Adaptive Network Traffic Reduction on the Fly with Programmable Data Planes

- Developed a major project in college, used for monitoring and controlling data transmission without any congestion using a localhost with security where admin and servers with PLCs take part in.
- HTML, CSS, JAVASCRIPT were used for frontend and PHP, SQL were used for backend development.

Calculator

Developed a simple, interactive calculator using HTML, CSS and JavaScript.
